

## Risks:

1. Google maps is down
2. Absence of more than 4 team members due to infection
3. Offer owners do not work with us
4. Competitor appears faster than our project

## Opportunities:

1. Offer owner wants to collaborate
2. Appears an alternative to google maps
3. Company wants to advertise in our app

probability	impact

	Rare					Risk 1
	Unlikely				Risk 3	
	Moderate			Risk 4	Risk 2	
	Likely					
	Very likely					

Color code:

Low risk
Medium risk
High risk

## Risk strategy:

1. Google maps is down > **mitigate**, will change in plan, and find an alternative
2. Absence of more than 4 team members > **avoid**, allow working from home
3. Offer owners do not work with us > **avoid**, using strong marketing strategy

4. Competitor appears faster than our project > **escalate**, ask the sponsor to increase the budget so I can hire more developers or buy more tools

### Opportunities strategy:

1. Offer owner wants to collaborate > **exploit**, assign contract with them
2. Appears an alternative to google maps > **enhance**, build a good relation in case we need them
3. Company wants to advertise in our app > **exploit**, assign contract with them
